WORK EXPERIENCE

.NET Developer   2023 - 2024

Avalora Tecnologías de la Información S.L

Engaged in full-stack development for web applications, from inception to deployment, using Visual Studio:

- Application Development: Designed, developed, and maintained a robust application architecture following the MVC model, leveraging .NET Core and Entity Framework to meet client specifications and ensure high-quality standards.
- Database Management: Created, optimized, and managed databases with Microsoft SQL Server, ensuring efficiency and data integrity
- Issue Resolution: Identified and resolved implementation challenges through detailed analysis, enhancing project stability and performance in close collaboration with the development team.
- Code Review and Documentation

IT Systems Administrator   2019 - 2021

Prosegur Compañia de Seguridad S.A

- Anomaly Detection: Monitoring of IT security, identification of vulnerabilities, logging interventions, and troubleshooting technical issues.
- Emergency Management: Quick identification of incidents with immediate response.
- Communication and Teamwork: Constant coordination with work teams and staff, including cross-departmental collaboration.
- Pattern Analysis and Monitoring: Monitoring security systems to identify track patterns.
- Risk Asset Management: Control and administration of sensitive assets, such as access keys, ensuring their proper use and storage.

Full-Stack Developer   2015 - 2017

Accenture S.L

Responsible for developing critical functionalities and enhancing user experience (UX) and user interface (UI) design in collaboration with a multidisciplinary team:

- Front-end development: Implementing web interfaces using HTML5, CSS3, JavaScript, and Bootstrap, achieving responsive design objectives and optimizing for multiple devices.
- Back-End Programming: Developed dynamic web applications and websites using PHP, with a focus on integrating and managing MySQL databases for efficient content management and data handling.
- Team Collaboration: Contributed to web development projects by creating tailored solutions, bridging back-end and front-end technologies to deliver cohesive and functional products.
- Maintenance and Documentation: Prepared comprehensive code documentation and conducted regular maintenance to uphold application performance, quality, and scalability.

ABOUT ME

Professional with experience as a Technician in Web Application Development, with my first professional exposure to the IT sector during my internship at Accenture. My experience in private security has provided me with key skills such as problem-solving, versatility, initiative, and autonomy, skills I have applied both to the jobs I have undertaken and to those I wish to pursue in the future within the technology field.

LANGUAGES

- Spanish: native
- English: high/ C1
- Portuguese: basic / B1

EDUCATION

- **Higher Vocational Training diploma Web Application Development**
  2021-2023
- **Private Security Course**
  2019
- **ERP JD Edwards Course**
  2019
- **Bachelor's Degree Materials Engineering Universidad Politécnica de Madrid**
  2017-2019
- **Professional Master's Degree in Web Project Design and Development CICE**
  2014-2015
- **Science and Technology High School Diploma**
  2008-2010

SKILLS

- **FrontEnd**: HTML, CSS, JavaScript
- **BackEnd**: PHP, SQL, Ajax, Java, C#, .NET, Git, Azure, Python
- **IDE**: VisualStudio, Eclipse, VSCode
